PROFILE

I am a **B.E. Computer Engineering** student, with a strong focus on analysis, problem-solving, and building practical technology solutions. I have experience working on various projects like Expense Manager, AI Log Analyzer, and more, which combine frontend/backend development, data, and real-time systems. My approach is to deeply understand core engineering concepts and programming languages by directly implementing them into practical projects for clear verification. I am especially interested in using AI and data-driven systems to solve real-world problems.

EDUCATION

Padmabhooshan Vasantdada Patil Institute Of Technology (PVPIT)	Pune, India
<i>B.E – Computer Engineering</i>	2024 – Present
Bharat College	Pune, India
<i>12th (HSC)</i>	2023
New Millenium English Medium School	Pune, India
<i>10th (SSC)</i>	2021

EXPERIENCE

FullStack Java Developer Intern | Jan 2026 – Mar 2026

IT Shaala

- Assisted in developing and maintaining website pages using Java Full Stack technologies.
- Worked on front-end design and styling to improve the website's appearance and user experience.
- Tasks and collaborated with the team to implement website features.

PROJECTS

Expense Manager | *React, JavaScript, HTML, CSS*

- Implemented features to add, view, edit, and delete expense records with a simple and user-friendly interface.
- Used React components and state management to dynamically update expense data and application views.
- Designed a responsive and clean UI using CSS for a better user experience across different screen sizes.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, HTML, CSS, SQL
- **Frameworks:** React, Bootstrap, Spring Boot
- **Tools:** Git
- **Concepts:** OOPs, DSA, DBMS

CERTIFICATIONS & ACTIVITIES

- **Certifications:** NPTEL(DBMS), Edunet(Training).
